STAINLESS STEEL PRODUCTS

ABOUT ZEW

ZEW Inwestycje offers elements of stainless steel for food processing, pharmaceutical industry, restaurants, swimming pools, commercial buildings, housing and parking lots.

TECHNOLOGY

All element are made of stainless steel AISI 304 or AISI 316. Welds are made in argon shield and protected against corrosion.

SANITARY INSTALLATIONS FROM STAINLESS STEEL

SHOWER DRAINS

Shower drains offered by ZEW Inwestycje are a durable and aesthetic solution, they are perfectly suited for installation in bathrooms, swimming pools and saunas.

The channels are made in standard and non-standard lengths. We offer various models of grids.

You can find us EVERYWHERE!

Smooth surface of finished elements and resistance to cleaning and disinfecting agents caused that stainless steel products are widely used in:

food
processing

restaurants

hotels

pharmaceutical
industry

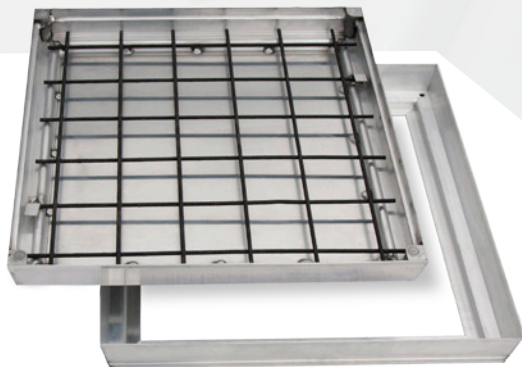

FLOOR DRAINS

Floor drains made of stainless steel equipped with removable grates, siphons and waste baskets. This facilitates ongoing service and maintenance.

STANDARD AND SLOT DRAINS

Made to order. We offer the selection depending on the destination and conditions of use.

INSPECTION HATCHES

Inspection hatches are used in places where access to the installation under the floor is required. We offer hatches made of galvanized steel, stainless steel and aluminum for various load classes

FLOOR ACCES PANELS

Made of stainless steel and equipped with screw-tight sealing covers. They provide easy access to the sewage system.

IN OUR OFFER YOU WILL ALSO FIND:

- floor drains
- inspection hatches
